

# Every Time I'm with You

Seal

Are we going insane?  
Do we need to explain?  
I feel like we know it  
Am I doing it right?  
Cause when you show me that candlelight  
I don't wanna blow it

Coming in, let me know if you like it  
Show me you like it, show me excited

I can lose it all, it won't be daunting  
Somehow I don't think I'd even care  
Cause every time I'm with you, I feel wanted  
We could make believers if we dare, yeah

There is so much at stake  
Hearts too soft to break  
But we don't need to go there  
Cause we're like summer and rain  
You and I are not the same  
That's what makes it perfect

Coming in, let me know if you like it  
Show me you like it, show me excited

I can lose it all, it won't be daunting  
Somehow I don't think I'd even care  
Cause every time I'm with you, I feel wanted  
We could make believers if we dare, yeah

Coming out, show me you like it  
Show me you like it  
Coming out, show me you like it  
Show me you like it

I can lose it all, it won't be daunting  
Somehow I don't think I'd even care  
Cause every time I'm with you, I feel wanted  
We could make believers if we dare, yeah  
We're just two believers if we dare, yeah

Coming out, show me you like it  
Show me you like it  
Coming out, show me you like it  
Show me you like it
