

Loaded

Seal

Oh little girl
What have we done
One of us came undone
Which one

Lost in the moment
My despair
Maybe we just don't care
I care

Put it one me
But baby not this much
It happened with just one touch
The devil in you I trust

Callin' on your face
I know it's true
Every time you look at me
This is not a place for me and you
Every time you look at me
Livin' in a dream and I wake up
Wonderin' where I'm goin' to
But it's true
When I do
I see you
Loaded like a gun

Oh little girl
Where will we go
One of us got to know
I know I told you so

You let me feel the place I might regret
Hearin' you call my name
Tomorrow lies in pain
Far away

Callin' on your face
I know it's true
Every time you look at me
This is not a place for me and you
Every time you look at me
Oh little girl
What have we done
One of us came undone
Which one

Lost in the moment
My despair
Maybe we just don't care

Put it one me

Every time you look at me

Livin' in a dream and I wake up
Wonderin' where I'm goin' to
But it's true
When I do
I see you
Floatin' like a bubble

Every time you look at me

Call a number
(Loaded like a gun)
Make me weak
(Loaded like a gun)
You're the crumble
(Loaded like a gun)
Escape the beat
(Loaded like a gun)
How I must feel when
(Loaded like a gun)
From alone in
(Loaded like a gun)
No we're not and bringin' you if you the only one
(Loaded like a gun)

I can feel you almost there and it's bad to see you go down so easily
I want you to look at me

Callin' on your face
I know it's true
Every time you look at me
This is not a place for me and you
Every time you look at me
Livin' in a dream and I wake up
Wonderin' where I'm goin' to
But it's true

When I do
I see you
Loaded like a gun

Every time you look at me

Every time you look at me
