

## Two Fine Lovers

Sean Lennon

When I first fell in love  
Is when I felt your touch  
But there's so much more I want to say  
We need to keep it real  
Sharing what we feel  
Together we can face tomorrow

If we ever get up at seven o'clock it's too soon  
It's better to stay in bed 'till half past noon

Cause we're two fine lovers  
So much to discover  
Two fine lovers  
Living under cover

When I look into your eyes  
I came to realize  
That you were so much more  
than my best friend  
I'll be there 'till the end  
I'm a one woman man  
Cause baby you are all I'll ever need

If we ever get up at seven o'clock it's too soon  
It's better to stay in bed 'till half past noon

Cause we're two fine lovers  
So much to discover  
Two fine lovers  
Living under cover  
We're two fine lovers
