Take one for the team when the opponents disperse damage

Never gun shy, I'm always the first brandish

Pop you in the face, you ate the dirt sandwich, P

I don't rap like the rest

The rest of y'all on that rap shit, put rapping to rest

Original gun clap, jackers pack in their skin

I'm a couple of mushrooms away from pitching crack on the steps

That shit is real, real shit, I'm rapping for real

Wrapping up bread 'til a nigga rap for a deal

You can be black or white and if your rapping is real

I appreciate that, Mac Miller is real, P

Black gorilla, de Ville

Where I reside I smack niggas and chill

Defending my bars first

Never respond to a f**king Kendrick Lamar verse
