

Save You

Seasons After

Watch you lose control
Of the ride
Watch you lose control

Blind my eyes

Praying for your soul
To fly high
Praying for your soul

Run and hide
Blind my eyes

I know that
I couldn't ever save you
The ringing question why
I did all that I could
When I stood by and watched you die

I couldn't ever save you
The ringing question why
I did all that I could
When I stood by and watched you die

Suffocating you
Self-loathing
Suffocating you

Blind my eyes

Which you could have seen
What we see
Wish you could have seen

Run and hide
Blind my eyes

I know that
I couldn't ever save you
The ringing question why
I did all that I could
When I stood by and watched you die

I couldn't ever save you
The ringing question why
I did all that I could
When I stood by and watched you die

I still blame you
I still blame everyone

I couldn't ever save you
The ringing question why
I did all that I could
When I stood by and watched you die

I couldn't ever save you

The ringing question why
I did all that I could
When I stood by and watched you die

I still blame you
I still blame everyone
I still blame me
I still wish you were here
