

# Take You Down with Me

Sebastian Bach

Why is it no surprise  
I'm succumbing to fear?  
Unforeseen alibis  
In my head I can hear

Devil on my shoulder  
Taking control over  
Action, reaction  
I just can't set it free

Take you down  
If I'm gonna die  
Take You Down With Me  
Take you down  
And I know it ain't right  
Take You Down With Me

I try to understand  
War, suffering and pain  
Turning mankind against man  
A generation is slain

Angel on my shoulder  
Fighting control over  
My temptation to  
Destroy all that I see

Take you down  
If I'm gonna die  
Take You Down With Me  
And I know it ain't right  
Take You Down With Me

Take you down  
If I'm crucified  
Take You Down With Me  
From the mountain on high  
Take You Down With Me

Take you down  
If I'm gonna die  
Take You Down With Me  
And I know it ain't right  
Take You Down With Me  
From the starry sky  
Take you down with me
