Die In Me

Sebastien

A mystery of broken glass
Silent secrets from my past
The things I've said and done still haunting me
The Evil grows higher
I feel there's someone in my mind
Behind my will a stronger one will be

Whenever I surrender to these hands
I feel there's a poison in my veins
No matter how I try to keep my distance
I pray to God: please, save me

Die in me! For once and forever
Die in me! Set me free
Die in me! You're blinding my soul in flames
Now hear me screamin'
Die in me! For once and forever
Die in me! Set me free
Die in me! You're blinding my soul in flames
So hear my voice and die in me

A mystery of human mind
Filthy daemons of my kind
Slaying your dreams until you're biting dust
The Evil grows stronger
Bringin' no future to your life
Behind your eyes only one could win!

Whenever I make you feel ashamed
Through my wicked temptation
No matter how you try to kneel and pray
I am your Lord forever

Die in me! For once and forever
Die in me! Set me free
Die in me! You're blinding my soul in flames
Now hear me screamin'
Die in me! For once and forever
Die in me! Set me free
Die in me! You're blinding my soul in flames
So hear my voice and die in me
