

# Frozen Nightingales

Sebastien

Night is over now  
And it brings me down  
Killing all desire  
Disappearing fire...  
Dark clouds above  
And all around  
Sleeper in the spire  
Just when the dreams expire...

I want you to lay down forever

Frozen nightingales  
(Vampires of the darkness  
Losing array)  
We're vampires of the darkness  
Frozen nightingales  
(I'm on the run from heaven  
Flying away)  
I run away from hell  
Fly away

Please wake me up  
From freezing pain  
Keep the ravens higher  
Bring me ice of fire  
Can't take no more  
This hurting chain  
Sleeper in the spire  
My bones are dead and tired

I want you to lay down forever

Frozen nightingales  
(Vampires of the darkness  
Losing array)  
We're vampires of the darkness  
Frozen nightingales  
(I'm on the run from heaven  
Flying away)  
I run away from hell  
Fly away

The darkness of dreams  
Lies frozen in a consciousness  
Is it hidden forever...?

Frozen nightingales  
(Vampires of the darkness  
Losing array)  
We're vampires of the darkness  
Frozen nightingales  
(I'm on the run from heaven  
Flying away)  
I run away from hell  
Fly away
