

# Lake of Dreams

Sebastien

Stealin' your face charm and bright  
Cold wind in moony an' beautiful night  
Traces of cream on your skin  
Eyes like the dark clouds and ultramarine

Won't you get me come along  
To see me bleed

Clear as the virginal snow  
History trapped in the oceans below  
Your lock refuses my key  
An' swans without the wings are headin' straight to me

Won't you get me come along  
To see me bleed  
Our lifes are way too long  
And out of speed

Lake of dreams - an' you're dancing on sunbeams  
Head full of light, delicious feel to stay  
Lake of dreams - gleamin' moment of your coming  
I'm givin' up to all your sins... blazin' away

I like the sound of your name  
Rings in the water and howls in the flame  
Spins of the Fortune now comes  
Hot wings are dyin' ... on the thunder drums

Stars are falling ... I'm always on the run  
An' it makes me cry  
Stressin' me now ... in the darkest pain  
As you're walkin' by

Lake of dreams - an' you're dancing on sunbeams  
Head full of light, delicious feel to stay  
Lake of dreams - gleamin' moment of your coming  
I'm givin' up to all your sins... blazin' away

Lake of dreams ...  
... blazin' away
