

My Deepest Winter

Sebastien

Memory lane is running deeper
In my vein... all the way
Shaking every feeling out of grain
Never remain the same as skyline
Of the space everywhere
Don't know where you lead me like a train

Blind of the fables and lies
Fears got my eyes
All in me inside

I feel the cold
My deepest winter
Shadow calls my mind
I feel I'm in my deepest winter
Blind discourse my mind

Gimme the cane I'm dazed in shiver
Touch my lips... all in there
All is in the order but my life

More
Gimme more of your lies
Moment you survive
Cutting off my life

I feel the cold
My deepest winter
Shadow calls my mind
I feel I'm in my deepest winter
Blind discourse my mind

Fear took a misfortune drive
Playing with a knife over empty sky
Lead out of madness inside
Play for me tonight
Rainbow when I die

I feel the cold
My deepest winter
Shadow calls my mind
I feel I'm in my deepest winter
Blind discourse my mind
