

Where The Wind Blows

Secret Service

Been waiting for such a long time
For you to come along
I knew right from the start
Straight from my heart
The place where we belong

Every dream that we've been chasing
Every dream we shared
What the two of us are facing
In the open air

We can go anywhere
We sail where the wind blows
It's alright, alright by the sea
We sail where the love grows
It's alright, alright come with me

Been hoping to see you follow
You know how much I care
Always there on my mind
Two of a kind I'll show you everywhere

Every dream that we've been chasing
Every dream we shared
What the two of us are facing
In the open air

We can go anywhere
We sail where the wind blows
It's alright, alright by the sea
We sail where the love grows
It's alright, alright come with me
