

# From a dream to a nightmare

Secret Sphere

There's a time to live  
Life is like a dream  
And there's a time to die  
Victim of those dying eyes

There are some nights I dream of you  
Life is like a painted, like a line, a game  
...don't know if I trust again

But I want to believe  
Here in my darkness day by day  
Come on and dream on  
Do believe in my eyes, don't be afraid to love again  
Here in the darkness we lay  
Do believe in my eyes, don't be afraid to love again  
I feel you awaken me from my lethargy, I'm afraid

Dream on, dream on, come here and dream on  
After all the pain you cried now take my hand  
Dream on

I'm burning out for you  
And you know that's is true  
You are the dark in me  
Victim of those dying eyes

There are some nights for dreams  
To follow your wicked way  
But in this night  
I don't know if I trust again

But I want to believe  
Here in my darkness day by day  
Come on and dream on  
Do believe in my eyes, don't be afraid to love again  
Here in the darkness we lay  
Do believe in my eyes, don't be afraid to love again  
I feel you awaken me from my lethargy, I'm afraid

Dream on, dream on, come here and dream on  
After all the pain you cried now take my hand  
Dream on

In your face I see the light  
You're an angels with demon's eyes  
Wicked game  
Point of no return  
A dream to find myself

Dream on, dream on, come here and dream on  
After all the pain you cried now take my hand  
Dream on, dream on, burn in this night from a dream to a nightmare
