

The easy way still voice concerns
That ... in the ... or dealing with pride
Too many ways to seize the road

Just lead yourself and seal your will become one

Seek the truth!
Millions of stories got lost in time
Create your spell, never mind what could've been
Reliance the key just to set things right
... of lies were ... from a dream
Like tears - even nothing but trust
The trust from within

Reliance like a growing sea
... with no guarantee
To ... into a darken ...
That can't come undone
That will come alive
Let it come alive!

Seek the truth!
Millions of stories got lost in time
Create your spell, never mind what could've been
Reliance the key just to set things right
... of lies were ... from a phase
Like tears - even nothing but trust
The trust from within

They call me insane
Because I believe
I trust
I forgive
I never forget - no - no

Forget - Forgive - Believe
Forget - Forgive - Believe
Forget - Forgive - Believe
Forget - Forgive - Believe

Reliance is the key
To open any door
They deal between hurt with no guarantee

Seek the truth!
Millions of stories got lost in time
Create your spell, never mind what could've been, yeah
Reliance the key just to set things right
... of lies will ... from a dream
Like tears - even nothing but trust
The trust from within
