

# The Mystery Of Love

Secret Sphere

Hold on day by day,  
I hear your whisper - 'Till the end of time... -  
like the day when my - My dream came true -  
I felt your essence became mine  
in the heat of emotions

For your kiss I'd die  
I stand before the window  
waiting for my love, forever...

The mystery of love  
I have learnt,  
in this journey through the endless,  
strongest passions,  
Every breathe, every heartbeat,  
leave a message that will last forever,  
forever

But the end  
is knockin' on my door,  
and my life will go on,  
the land calls my name,  
chasing thruth eternally,  
now I'm gonna leave my heaven,  
my destiny changes its way

Another sky I reach,  
another air I breath,  
Someday, I know,  
my eyes will meet yours

Now I wonder, and waiting,  
I wonder how my life goes on...wonder

The mystery of love  
I have learnt,  
in this journey through the endless,  
strongest passions,  
Every breathe, every heartbeat,  
leave a message that will last forever,  
forever
