

I'll mark your every word
I'll wear the smile you gave me
Somehow it seems you saved me
And if I'm about to fall
May I go out like this
May I go out like this

And I'd try to make it more poetic
But it's only easy if you let it
I swear that you will never regret it
I swear that you will never regret it

When all the chips are down,
and you're not the hottest thing around town
You'll need a hand to safely
Walk you through the maze
We'll be lost here all the same
Be lost here all the same

And I'd try to make it more poetic
But it's only easy if you let it
I swear that you will never regret it
I swear that you will never regret it

I'll lose my breath for you
And I don't want it back
All that I have is yours
Went to the moon and back
so I can prove the fact

I'll lose my breath for you
And I don't want it back
All that I have is yours
Went to the moon and back
so I can prove the fact

So if you give me this one chance
I'll show you how I see you
When memories deceive you
Right here is where I stand
I hope you understand
I hope you understand

And I'd try to make it more poetic
But it's only easy if you let it
I swear that you will never regret it
I swear that you will never regret it

And I'd try to make it more poetic
But it's only easy if you let it
I swear that you will never regret it
I swear that you will never regret it
