

# River

Seinabo Sey

You led me to the water  
Said it heals my hand  
You took me to the river  
Said soon you'll understand  
I came to cross it, I came to leave  
I came to see the future  
Will you tell me when I'm near?

I understand you now  
I understand you now  
I understand you now  
You had to  
I understand you now  
I understand you now  
I understand you now

Now your intentions stay the same  
Waiting for you to call my name  
You had me where you wanted  
But I still feel shame  
I can't stay long  
But I still can make you smile  
I can try for days  
But that won't make you stay

I understand you now  
Yes I do  
I understand you now  
Yes I do  
I understand you now  
You had to  
I understand you now  
Yes I do  
I understand you now  
Yes I do  
I understand you now

You say I took all of the fire  
I made sure that we lost desire  
I might have said it first but you made it true  
Now all of that you can say is that I shouldn't have let you

I understand you now  
Yes I do  
I understand you now  
Yes I do  
I understand you now  
You had to  
I understand you now  
Yes I do  
I understand you now  
Yes I do  
I understand you now
