

## Better Than Aliens

Self

They married young she became a widow  
And for all of her bingo friends- ditto  
She succumbed to ordinary jive  
And was miserable  
Tired of waiting for her ship and captain  
Too afraid that the prior would happen  
Fell in love with an ordinary guy  
Who was dressed in drag

Your love's better than aliens tonight  
(2x)  
Your love's better than anything that I like  
A lot

How can you bury your head so deep  
In the bed (and pillowcase)  
Girl, there's no oxygen  
Shortly after, the waves came crashing in  
She moved on to find bigger fish to swim with  
In the lonely, lonely November night  
She was abducted on sight  
Based on her principles  
Your love's better than aliens tonight

Your love's better than everything that I like
