

Ohh, I am tireless, sub zero, comin' from the wireless Won't be  
no scenery, no part of the machinery I go on and on but never  
below So, now you see me and know, you can check it and go 'Cau  
se I'm so bored that I can't even pretend no more It's so pathe  
tic that I'm rolling around on the floor Laughing at one big ga  
g And every now and then they pull another rabbit out of the ba  
g Of sad diversions, useless tedious excursions Roll into unrea  
listic, crypto-fascistic Comedy doctrine, kick the ballistics A  
gain and again and again, just say when Ya had enough, sad enou  
gh or mad enough To do something simple and kind Now is the tim  
e A change of state of mind I am a loner, a zoner, I utilize th  
e microphone And if they try a tap, I leave 'em hangin' on the  
telephone Wasted, so wasted, so They're waiting for the visitor  
s so they can go and try again On the next step, on the next on  
e Come on and get some, jet some, static Solid state, automatic  
Sporadic and random 'cause nobody planned 'em Anarchy, free th  
ought can't be bought So, disregard the lessons and the shit yo  
u've been taught I'm saying it and now they're playing it to me  
Larger than life every day and this is what they say Shut your  
mouth and get back in line And if you don't like it, well, it  
suits us just fine We pull the levers, we hold the strings And  
these are just a few of our favorite things Learn the words of  
the company song White is right is right is strong, come on chi  
ldren all sing along 'Cause if you think you can change You wer  
e never more wrong No, fuck that, you won't take me, you won't  
break me And you'll never make me, step in line and step march  
in time Well, you can violate my body but my soul is still mine  
You must think that I'm fucking stupid, man If you think I'm g  
onna hang with the program, some fool schedule I don't give a s  
hit about what is or isn't cool I make the rules, I stand alone  
And if they try a tap, I leave 'em hangin' on the telephone On  
e of these days I'm gonna get sectioned I bet they even say it'  
s for my own protection Rejection leads straight to correction  
Look out, here comes a strange injection They've got a drug to  
numb my erection But they won't take this from me My state of m  
ind, it won't change me My state of mind, state of mind Ohh, ch  
ange me, ohh, change my fate State of mind
