

# One More Day

Sentenced

It feels that your love for me  
is slowly turning to dust  
It seems that our union made of iron  
is starting to rust

I hate life  
I hate this shit  
I love you and I hate myself  
I hate our world  
and everything in it  
I hate loving you  
I hate  
I hate

Give me a reason to live  
one more day  
Let me just once more feel  
your light through the rain

It feels that my love for you  
is eternal, never-ending  
but it seems that you're not receiving  
what I have been sending

I love life  
I love this shit  
I love you and I hate myself  
I love our world  
and everything in it  
I love loving you  
I love  
I hate

Give me a reason to live  
one more day  
Let me just once more feel  
your light through the rain

Give me a reason to live  
one more day  
Let me just once more feel  
your love through the pain
