

# Midnight Heartache

September

I spent my waking hours thinking of you  
Dream all through the night  
It might be wrong that little thing you do  
But it feels so right  
Give me a memory to carry for life  
A piece of you that's mine  
'Cause when you're out of reach and out of sight  
I want you on my mind

Midnight heartache  
We're gonna get it out, round and round we go  
Midnight heartache  
We're gonna get it out, round and round till dawn

You're like the rain that soaked the barren earth  
I'm your desert bloom  
You are the sun, the flame that always burns  
I'm your reflecting moon  
You'll be the dream of summer keeping me warm  
Through the winter's cold  
You are the lighthouse in a raging storm  
And you will save my soul
