

# Nobody Knows

September

Where do we go?  
What do we know?

I wake up draining up all my energy  
I ain't got time to fix reality  
I'm going with the voice inside of me  
"Gonna be, let it be, just let it be"

Upon the sun that stand the light of day  
That's what we want and who we wanna stay  
Well, life is nothing you can hear or say  
Go away, go away, just go away

Where do we go?  
What do we know?  
Where do we go?  
Nobody knows, nobody cares...

Where do we go?  
What do we know?  
Where do we go?  
Nobody knows, nobody cares...

I like my feet when I look for the ground  
I'm gonna keep my head up in the clouds  
Where I can feel the minor sounds  
Move around, float around, just float around

We never take responsibility  
We greet tomorrow with hostility  
We know exactly who we wanna be  
You and me, you and me, just you and me

Where do we go?  
What do we know?  
Where do we go?  
Nobody knows, nobody cares...

Where do we go? (yeah, yeah)  
What do we know?  
Where do we go?  
Nobody knows, nobody cares...

I couldn't change the world around me  
Can't make the difference stop  
And then, like a bubble that surrounds me  
Moving on, I'm moving on...

Yeah

Nobody knows, nobody cares...

Where do we go?  
What do we know? (ah, yeah)  
Where do we go?  
Nobody knows, nobody cares...

Where do we go?
