

Enemy of Truth

Septicflesh

The silent borderland
Where words become undone
Brainwave, treachery
A different truth to see
To keep a secret
Misinformation is the key

Twenty first century
New ways of slavery
So many prying eyes
Communication spies

Ghosts are fighting for the cause
With poisoned words
Half truths, false proofs
The trap is set to snare the wolf

The enemy of truth

Fight the enemy of truth
Fight the enemy of truth

Sense destroyer
Sense destroyer
Sense destroyer
Sense destroyer

Mental surgery
Social lobotomy
Confusion, delusion
We all connect and share
The perfect way for lies to spread

Fight the enemy of truth
Fight the enemy of truth
