

Breathe

Serebro

You
From my dream
Made from water
Melting at the edges
I
Gave you the secret
I was calling you
As long as I could
Don't be silent
The blood will not cool down
My love is in it

Breathe
With me
Casting shadows
We are dancing under water
Breathe
With me
Maybe someday
We will meet again
(2x)

There is nothing
Anymore
Except
Your breath
We
Will swim away
Where always is flowing
Water in the veins

Don't be silent
The blood will not cool down
My love is in it

Breathe
With me
Casting shadows
We are dancing under water
Breathe
With me
Maybe someday
We will meet again
(2x)

Breathe...
