

Chocolate

Serebro

All by the touch
U took my heart and all the keys
Is it not much? Oh
What'd be more than what you squeeze
I've got no ammo ammo ammo ammo ammo
And I hope you see
Just recognize
The only door to paradise
I'm gonna keep
I know I need to get it done
Five miles deep
Rush into your latest ton
No drop kayo kayo kayo kayo kayo
Cuz I see it through
Come over me
Take my love you have never seen

My love for you
Tastes like summer
And chocolate, chocolate, chocolate cookie
Tastes like this summer
And chocolate, chocolate, chocolate cookie
Tastes like this summer
And chocolate, chocolate, chocolate cookie
Chocolate, chocolate, chocolate cookie
Chocolate, chocolate, chocolate cookie

Nobody sees
What we can do the other night
Drown in the sea
Hold on your breath before footlight
Shake like never never never never never
Never been in love
No nothing's wrong
If we're hanging on so long
Are you against?
Or you just don't wanna try
Are you bit tensed? Oh
Let it fly the other sky
Play my tempo tempo tempo tempo tempo
As you feel inside
Slow motion crime
I'm way more to get your mime

My love for you
Tastes like summer
And chocolate, chocolate, chocolate cookie
Tastes like this summer
And chocolate, chocolate, chocolate cookie
Tastes like this summer
And chocolate, chocolate, chocolate cookie
Chocolate, chocolate, chocolate cookie
Chocolate, chocolate, chocolate cookie

My love for you
Tastes like summer
And chocolate, chocolate, chocolate cookie

Tastes like this summer
And chocolate, chocolate, chocolate cookie
Tastes like this summer
And chocolate, chocolate, chocolate cookie
Chocolate, chocolate, chocolate cookie
Chocolate, chocolate, chocolate cookie
