

Get Lost With Me

Serebro

I'm not afraid of your dropped eyes
Just wanna slow it down
Electric touch makes me feel so nice
Sticky hands understand
That I can't be without you
Tricky end's in demand
Cuz I can't go far with you

Ohh, how far we go
How much we know?
Come get lost with me?
How far we blow?
How much we show
Come get lost with me?
How far we go
How much we know?
Come get lost with me?
How far we blow?
How much we show

Thinking it's strange how you make it bounce
Don't wanna slow it down
I love to watch how you do your pounce
And this dance in advance
Runs so fast deep inside my mind
Like a chance I will glance
Cuz I need it one more time

Ohh, how far we go
How much we know?
Come get lost with me?
How far we blow?
How much we show
Come get lost with me?
How far we go
How much we know?
Come get lost with me?
How far we blow?
How much we show

Get lost with me, lost with me
Lost with me, get lost with me
Come get lost with me, lost with me
Lost with me, get lost with me
Come get lost with me!
Lost with me! Lost with me!
Get lost with me!
Come get lost with me!
Lost with me! Lost with me!

How far we go
How much we know?
Come get lost with me?
How far we blow?
How much we show
Can you classed with me?
