

Completely

Serial Joe

I look into your eyes
You turn away from me
There must be something here
You don't want me to see
Cause when you're out with him
You never hold his hand
There must be something that
I just don't understand

CHORUS:

I want you, you need me
We fit all too completely
I want you, to know that
I need you to complete me

You should be here with me
You need someone who cares
You'll look to him for love but
He just won't be there
He'll only break your heart
He'll hurt you in the end
But I'll be waiting here
I'll still be your best friend

CHORUS:

I want you, you need me
We fit all to completely
I want you, to know that
I need you to complete me
I want you, you need me
We fit all to completely
I want you, to know that
I need you to complete me

BRIDGE:

Complete me
'Plete me yeah
To complete me
I need you to complete me
'Plete me yeah
To complete me

CHORUS:

I want you, you need me
We fit all to completely
I want you, to know that
I need you to complete me
I want you, you need me
We fit all to completely
I want you, to know that
I need you to complete me
