

# Unopened Windows

Set It Off

My favorite movies  
Are tales never filmed  
That I dream of living out  
A private screening  
That plays in the field  
But I'm trapped inside this house

Walk through the halls  
Trace the walls  
Back to where we made our memories  
See what will never be

Through unopened windows  
Bound to my heart  
Fantasy so close  
Feels so afar  
But I long, to break the lock  
And live among the life we lost  
Through unopened windows  
They tear me apart

I'm sick of hearing  
That time always heals  
Try to tell that to my scars  
Sure it stopped the bleeding  
And it's harder to feel  
But it really left a mark

I walk through the halls  
Trace the walls  
Back to where we made our memories  
See what will never be

Through unopened windows

Bound to my heart  
Fantasy so close  
Feels so afar  
But I long, to break the lock  
And live among the life we lost  
Through unopened windows  
They tear me apart

All the stories left unwritten  
That we drew up in the past  
It's the game we never went to  
Or the drinks we never had  
As I look up to the stars  
Make a wish to bring you back  
But I curse the roof above me  
And I learn to live behind all these

Unopened windows  
Bound to my heart  
Fantasy so close  
Feels so afar  
But I long, to break the lock

And live among the life we lost  
Through unopened windows  
They tear me apart

They tear me apart  
They tear me apart  
See what we'll never be  
Through unopened windows  
They tear me apart
