

# Wild Wild World

## Set It Off

What a wild, wild world we live in,  
Where money talks and trouble sells,  
Where if we strive to find the heavens, oh no  
Then we got to walk through hell

Well if we crave a change,  
Why not start today?  
And sing it out loud

We're not going crazy,  
We're learning to fly,  
We're looking for answers  
With both of our eyes  
Well maybe it's time to tame the monster inside,  
Of this wild, wild world we live in

Wild world we live in

Let's go

There's a million pieces missin',  
And seven worlds to fall apart, like that  
Well how can one man make a difference?  
Ohh how?  
Maybe love is where it starts

Well if we crave a change,  
Why not start today?  
And sing it out loud

We're not going crazy,  
We're learning to fly,  
We're looking for answers  
With both of our eyes  
Well maybe it's time to tame the monster inside,  
Of this wild, wild world we live in

Destroy and rebuild,  
It's kill or be killed,  
But we can change,  
We can change everything,  
A little love,  
Never hurt anything

We fight and we bleed,  
We live and we breathe  
And we can change,  
We can change everything,  
We can change the world, yeah!

What a wild, wild world we live in

Well if we crave a change,  
Why not start today?  
And scream it out loud

We're not going crazy,

We're learning to fly,  
We're looking for answers  
With both of our eyes  
Well maybe it's time to tame the monster inside,  
Of this wild, wild world we live in

We're not going crazy,  
We're learning to fly,  
We're looking for answers  
With both of our eyes  
Well maybe it's time to tame the monster inside,  
Of this wild, wild world we live in

What a wild wild world  
That we live in
