

# The Underworld

Setherial

Grace fallen wretched reptile, I am the nemesis  
Sworn to sin and suffering, I am deception's kiss

How bleak the light appears  
Inside these walls...

Defiling wicked serpent, I am the fallen one  
Born of hate and loathing, I am damnation's son

How grim the night shall be  
When demons stir...

Corruptive, unforgiving, destructor of the pure  
Blasphemous, omni slaying, creator of the war  
I am the one that standeth tall  
Overlord of the vice and oppressor of the whore

This night, I rise to claim my throne  
All dies, as my disciples roam

This is the end of worlds!  
This is the underworld!

This night, your world will be my world  
No light shall shine forever more

This is the end of worlds!  
This is the underworld!
