

## Settle Up

Seven Mary Three

I'm a False Start on a Jukebox, a broken heart after last call  
It's lights up, I'm locked in, and now its time to settle up

No slow emotion anymore  
I know the secret of this town  
Faster Faster you're to the floor  
It sets you up just to knock you down

Tomorrow starts when I decide to settle up with everything I hide  
Things I want, the things I miss, a neon sign I can't resist

I'm drawing stick figures on a napkin of you and me  
They're not your friends but they'll be around  
To raise a glass and watch you drown

No slow emotion any more  
I know the secret of this town  
Where every kid's in love with death  
The boredom brags a familiar sound

No slow emotion anymore  
I know the secret of this town  
Faster faster you're ignored  
Set them up just to knock them down
