

## Confessions (Without Faith)

Sevendust

I see the magic taken out of our dream  
That kept me young and trusted?  
Singled out and dazed  
What else can you do for me to keep me standing?

Everyday's a new confession  
Vulnerable, are we all?

With our faith, we'll go on 'til it's over  
The world doesn't always love you  
But you never let that define you  
Just have faith, we'll go on  
We'll get closer  
To everyone whoever tried to hate you  
Say goodbye, it was nice to know you!  
Nice to know you!

I've become so cynical  
Tell me now  
How can I hear the voice of reason?  
You're so beautiful  
What else can you do for me to keep me grounded?

Everyone's a new possession  
Vulnerable, are we all?

(2x)

With our faith, we'll go on 'til it's over  
The world doesn't always love you  
To everyone whoever tried to hate you  
Just have faith, we'll go on  
We'll get closer  
To everyone to ever tried to hate you  
Say goodbye, it was nice to know you!  
Nice to know you!

It was nice to know you!  
It was nice to know you!  
It was nice to know you!

(2x)

With our faith, we'll go on till it's over  
The world doesn't always love you  
But you never let that define you  
Just have faith, we'll go on, we'll get closer  
To everyone whoever tried to hate you  
Say goodbye, it was nice to know you!
