

## Fall In Line

### Seventh Wonder

I have read the signs and the warnings  
I'm telling you our destiny is here, destination nowhere  
Pain will follow (it will follow) destination known  
Mercy Falls is in its way

We need to run for cover what will you do?

Come! We must unite to save our town  
Raise a shelter! Where?  
Well, look at your way, did you find  
Did you find an opening here?  
Look everywhere, wrap their arms around your neck  
Shelter them!

Won't let you die my love  
My heart is pumping harder every beat  
Don't worry - I will keep you safe and warm

So stand!  
The storm is on the way, united we all stay  
Every able man must fall in line  
It's true... - every man!

Come - we all must go down to the square  
Something big is up!  
I've realized that the Evening Post was right!  
The storm is coming, oh - God save our town  
- Just like that everyone in the town was there  
You better believe my words  
When I say that the men were in fear  
And every woman and child

And we will dry your tears  
My arms will carry you  
Regardless of what's coming next  
We will escape the pain

So stand!  
The storm is on the way, united we all stay  
Every able man must fall in line  
It's true... - every man!

Hear! The steps of fate grow clear  
The town will stand its ground  
Hold tight and make your plight - and stand!

The storm is on the way, united we all stay  
Every single able man has fallen in line to prepare...  
- Yes every man
