

You're History

Shakespears Sister

Well

You made your bed

Better lie in it - get back to sleep !

You should see me when you're not around

I'm a genius in this town

I'm a queen bee when the coast is clear

Now I know I don't need you

Dear.

So leave your hand like a magic man and disappear !

You're history

- like a beat up car -

No good for me

- like an old film star -

You're history

- that's what you are - na

Na

Na

Na.

You're history

- you're history -

No good for me

- no good for me -

You're history

- you're history - na

Na

Na

Na

Na.

You should see me from your ivory tower

I'm the hero of the hour

I'm a close friend of destiny when you're not here to bother me.

Well

You made your bed

Better lie in it

Get back to sleep !

You're history

- like ancient Rome -

No good for me

- like the Dead Sea Scrolls -

You're history

- everybody knows - na

Na

Na

Na.

You're history

- you're history -

My enemy
