

# Come On Little Girl

Shakin' Stevens

Standing on a corner  
Of the chrome sitar  
Everybody ask who the hell you are  
Somebody scream and shout, somebody spoke  
Somebody said that life is just a joke

So come on little girl  
Won't you hold my hand  
Come on little girl  
Don't you understand  
Come on little girl, yeah yeah  
Love is grand, won't you hold my hand - Oh yeah

Silver screen goddess with desirable gaze  
Yearns for my love in so many ways  
Rock n roll Jupiter going to Mars  
Love for that girl was written in the stars

Come on little girl  
Won't you hold my hand  
Come on little girl  
Don't you understand  
Come on little girl, yeah yeah  
Love is grand, won't you hold my hand - Oh yeah

Come on little girl  
Won't you hold my hand  
Come on little girl  
Don't you understand  
Come on little girl, yeah yeah  
Love is grand, won't you hold my hand - Oh yeah

Standing on a corner  
Of the chrome sitar  
Everybody ask who the hell you are  
Somebody scream and shout, somebody spoke  
Somebody said that life is just a joke

So come on little girl  
Won't you hold my hand  
Come on little girl  
Don't you understand  
Come on little girl, yeah yeah  
Love is grand, won't you hold my hand - Oh yeah

Come on little girl  
Won't you hold my hand  
Come on little girl  
Don't you understand  
Come on little girl, yeah yeah  
Love is grand, won't you hold my hand - Oh yeah

Come ooon, Come on Little girl  
Love is grand, won't you hold my hand - Oh yeah  
Oh yeah  
Come on
