

Do What You Did

Shakin' Stevens

Well do what you did
When you did what you done, last night
To me!
Well do what you did
When you held me, woah, so tight
Oooh!

Do what you did
When the lights were low
Just me and you and the radio
Do what you did
When you did what you done last night
Ooh Yeah!

Aah do what you did
When you held me close
When you made
My soul roast
Do what you did
When you did what you done last night
To me!

Ooh do what you did
When the lights were low
Just me and you and the radio
Do what you did
When you did what you done last night
To me!
Ooh do what you did
When you did what you done, last night
To me!
Ooh do what you did
When you held me, woah, so tight
Ooh do what you did
When you held me close
When you made
My soul roast
Do what you did
When you did what you done last night

Do what you did
When you held me close
When you made
My soul roast
Do what you did
When you did what you done last night
To me!
