

Forever You

Shakin' Stevens

If I could make a wish come true
You'de always love me the way you do
You'de never leave me, and when my life is though
There'd be nothing I'de miss
Cause heaven must be like this
Forever you

Safe in my arms
You'de always be
Not just a lifetime, but eternally
If we had true love, there's nothing we can do
I don't need to wish twice
There's only one paradise
Forever you

Why should I wish for the stars
The stars are in you eyes oh blue
My wish will be forever you

So whatever happens for this I'm sure
We'll be together for ever more
That's what I'm wishing, and if my dreams come true
There'll be forever me, and my forever will be
Forever you

Why should I wish for the stars
The stars are in you eyes oh blue
My wish will be forever you

So whatever happens for this I'm sure
We'll be together for ever more
That's what I'm wishing, and if my dreams come true
There'll be forever me, and my forever will be
Forever you
Forever you
Forever you
Forever you
