

Now Listen

Shakin' Stevens

Now Listen
Don't throw it all away
In a second everything could change
Just look around you see those by your side
It's not that hard to make somebody smile

So if that's all it takes
We can learn from our mistakes
We can walk that extra mile
To make it all better

Ooh if that's what needed
Don't sit and wait
Before it gets to late
We gotta hold on, hold on
If that's all it takes

Now Listen
Just let somebody know
Make your emotions they shelter from the cold
We can all make better use of time
With someone special we could loose in life

So if that's all it takes
We can learn from our mistakes
We can walk that extra mile
To make it all better

Ooh if that's what needed
Don't sit and wait
Before it gets to late
We gotta hold on, hold on
If that's all it takes

We can all make better use of time
With someone special we could loose in life

So if that's all it takes
We can learn from our mistakes
We can walk that extra mile
To make it all better

Ooh if that's what needed
Don't sit and wait
Before it gets to late
We gotta hold on, hold on
If that's all it takes
We gotta hold on, hold on
If that's all it takes
Ooooh oooh umm
