

# Skin On Skin

Shakira

Just a little bit more love  
Just a little bit more passion  
This is how it should begin, skin on skin  
If you leave me now telling me  
you failed somehow  
Better think it all over  
Just as love's around  
Here's true romance  
Be aware and take your chance  
Tomorrow I'm gonna leave you  
But I am here for you tonight

Every single day I want you to know  
My love is true  
So baby let me show you what to do

R1: Just a little bit more love  
Just a little bit more passion  
This is how it should begin, skin on skin  
Just a little getting close  
Just a little more affection  
'Cause I don't think it's a sin  
Skin on skin

R2: Don't you know that this game is to play  
Just as long as it's time?  
Can't you see  
That my heart's gotta know  
When you're gonna be mine?

Just a more love(2x)

So we better get it on  
What is here will soon be gone  
When the leaves are falling  
Maybe we could fall apart  
And there may come a time  
When you will forget my love is true  
So baby let me show you what to do

R1: Just a little bit more love...

R2: Don't you know that this game is to play...

R1: Just a little bit more love...

Don't you know that this game is to play?  
Don't you know don't you know that it's time?  
Can't you see  
That my heart's gotta know  
When you're gonna be mine?  
Just a little bit more love  
Just a little bit more love  
Just a little bit more love  
Just a little bit more love  
Just a little more passions  
Skin on skin

R2: Don't you know that this game is to play...
