

Stay With Me

Shane Dawson

The sun doesn't shine as bright as it used to
The clouds are covering the sky
My heart doesn't beat as strong as it used to
And baby you're the reason why

In one moment, everything started breaking
In one moment, I died
In one moment, all of my world started shaking
Baby, bring me back to life

Oh, why you going, why you going away?
Far away
Oh, baby hold on, I just want you to stay
Baby, stay
Stay with me, me yeah
Stay with me, me yeah
I want you to stay

The craters around me now they are fading
Like all the yellow turned to grey
But I'm hanging on to hope, yeah I'm waiting
That she'll return to me someday

In one moment, everything started breaking
In one moment, I died
In one moment, all of my world started shaking
Baby, bring me back to life

Oh, why you going, why you going away?
Far away
Oh, baby hold on, I just want you to stay
Baby, stay
Stay with me, me yeah
Stay with me, me yeah

When I'm without you everything feels like it's tumbling down
Into the ground, and I am bleeding
When I'm without you everything feels like it's falling apart
And I'm in the dark
Baby

Oh, why you going, why you going away?
Far away
Oh, baby hold on, I just want you to stay
Baby, stay
Stay with me, me yeah
Stay with me, me yeah
Stay with me, me yeah
Stay with me, me yeah
