

I Can't Get over You

Shane Filan

Did you love me, did you love me at all
Did you want me, did I make it all up
Your footsteps they follow me, follow me around
But no one's there when I turn around

I can't get over you
My world doesn't want me to
You might save my life
God knows I've tried
But I can't get over you

Like a mirror with a crack in the glass
I'm afraid to face it, you cut me in half
I tried replacing you, filling up my nights
But I'm only wasting my time

Cause I can't get over you
My world doesn't want me to
It might save my life
God knows I've tried
But I can't get over you

Your footsteps they follow me, follow me around
But no one's there when I turn around

Cause I can't get over you
My world doesn't want me to
You might save my life
God knows I've tried
But I can't get over you

It might save my life
God knows I've tried
But I can't get over you
