

# Another Lonely Day in California

Shanice

Standing in the crowded room  
All on my own  
I just wanna walk away  
I cried so many tears at night  
I got to stay  
Trying to find my way  
You can't have sunshine without the rain  
So you just have to deal with the pain  
It's just another lonely day

(Another lonely day)  
In California  
(In California)  
It's just another lonely day  
(Another lonely day)  
In California

What am I doing to myself?  
Got to get out of my head  
Don't like the way I am acting, get rid of my distractions  
Pushing through, is what I got to do  
Can't let the darkness keep me in  
But for now it's just another lone lone lonely day

(Another lonely day)  
In California  
(Another lonely day)  
In California

I got to start loving me cause now I'm free  
I truly see who I can be  
Oh it's okay to have a lonely day  
I'll be okay, I'll be okay

No more tears  
(No more tears, the pain is gone)  
Pain is gone  
(I'm not afraid to walk alone)  
Not afraid  
(No more tears, the pain is gone)  
Pain is gone  
(I'm not afraid to walk alone)

(Another lonely day)  
A lonely day  
(In California)  
California  
(Another lonely day)  
A lonely, a lonely day  
(In California)  
In California  
Just another lonely, lonely day  
(Another lonely day)  
(In California)  
California, California  
(Another lonely day)  
Just a lonely day

(In California)  
California  
Lonely day  
Just another lonely day
