

Somewhere

Shanice

Now that I'm grown and I've made it on my own
My friends say I'm crazy for still being alone
But ain't found the right one for me
But I know that he's out there
Just wait and see
All I do is try to keep my head together
Cause I know don't want no stormy weather
All I need is a man that's gonna satisfy me
He's out there I know

Somewhere there's a love for me
Soon as I can I'm gonna find my baby
Somewhere there's a love for me
Soon as I can I'm gonna find my baby

I've looked everywhere for that special someone
Who's for real and understands
All good things are gonna go to those who wait
I need your loving now
Let's not hesitate
All I do is try to take control of my life
Cause I know don't wanna make the wrong move
Please stop hiding
I really need you by my side
You gotta treat me right
He's out there somewhere I know

Somewhere there's a love for me
Soon as I can I'm gonna find my baby
Somewhere there's a love for me
Soon as I can I'm gonna find my baby
