

# Take It Back

Shannon Noll

Those blue jeans, torn at the knees  
That white t-shirt ripped at the seams  
They weren't perfect  
But baby they felt so good  
Just like they should

And those were the days when we were so free  
I remember when you said to me

We can run away  
Things don't need to change

Let's take it back to the way it was  
Let's take it back to the place where we come from  
I know where you wanna go  
Let's take it back to the way it was

Those hot days, even hotter nights  
That short black skirt made me feel alive  
Our first kiss  
Baby it felt so good  
Just like it should

And those were the days when we were so free  
It all still means so much to me

We can run away  
Back to yesterday

Let's take it back to the way it was  
Let's take it back to the place where we come from  
I know where you wanna go  
Let's take it back to the way it was

Yeah!

Let's take it back to the way it was  
Let's take it back to the place where we come from  
'Cause I know where you wanna go  
Let's take it back to the way it was

I know where you wanna go  
Let's take it back to the way it was
