

Give

Shaun Baker

Love, peace, harmony
Give it all you can
Help a friend, help a stranger
Help your fellow man
Things you recieved
From the day you were decieved
Are on rent, lend, lease
This greed is got to cease

You may think part is free
But sorry I must disagree
To walk and talk is all we need
Got to make your contributions to the world
So give

Give the sun a reason
Give the sun a reason to smile
Give the world a reason to turn
And the reason for the love
Give the trees a reason
Give the rivers a reason to flow
Give the birds a reason to sing
Take this jack never scheme

To burn...
To turn...

Joy, truth, unity
Give it let it roll
This friuts we are reaping
Are the seeds that we sowed
We, you, me too
Everybody now
Give a share everywhere
Always keep it there

You may think part is free
But sorry I must disagree
To walk and talk is all we need
Got to make your contributions to the world
So give

Give the sun a reason (to shine)
Give the child a reason to smile (to smile)
Give the world a reason to turn (to turn)
And the reason for the love (to burn)
Give the trees a reason (to grow)
Give the rivers a reason to flow (to flow)
Give the birds a reason to sing (to sing)
Take this jack never scheme

Reasons to joy
Reasons to turn
Reasons to grow

Give the sun a reason (to shine)
Give the child a reason to smile (to smile)

Give the world a reason to turn (to turn)
And the reason for the love (to burn)
Give the trees a reason (to grow)
Give the rivers a reason to flow (to flow)
Give the birds a reason to sing (to sing)
Take this jack never scheme
