

# Hope Is Right Here

Shawn McDonald

Welcome to the search for meaning  
If you're alive, then you're feeling  
what it is to be happy, lonely, broken  
To be human

We're all the same when it all comes down to it  
All looking for hope when we're going through it  
At the end of the day it's not far away

Hope is anywhere, any place we are  
There's nothing you need to fear  
Because His love is reminding us  
Hope is right here, hope is right here  
Hope is here

You are not alone in the moments  
When you're afraid  
He holds them in His hands  
So you can rest in the promise

This world may not be home  
But that don't mean we're on our own  
Because His love is reminding us  
Hope is right here, hope is right here

This world may not be home  
But that don't mean we're on our own  
Because His love is alive in us  
Hope is right here, hope is right here
