And On A Rainy Night

Shawn Mullins

February rain smoky mountain fire Like a hummingbird to cane Just following desire Watch the firelight

Throw shadows across the room Many miles away Not far from cannery row He beats on his guitar

And does his little show And all the people say You got balls to play the game this way It's one in a million

So he fills all the holes With good wine from mussel sholes And the cencemillian These streets were bound to cross

Maybe lifetimes ago Whenever innocence is lost We got a long way to go We got a long way

Watch the firelight throw Shadows across the room And on a rainy night Two lovers held each other tight

In the moonlight (he felt so good in her arms) In the moonlight (he felt so good in her arms) In the moonlight (he felt so good in her arms)
