

# I Knew a Girl

Shawn Mullins

I know a girl with a frozen heart  
You never see her cry  
I know a girl with a frozen heart  
You couldn't break it if you tried

She slept alone  
In a three bedroom home  
But lived inside her mind

I knew that girl with a frozen heart  
She was a friend of mine

I know a girl with a broken soul  
Chained to a memory  
I know a girl with a broken soul  
She just couldn't let it be

She killed the pain

Only in vain  
Just to feel good for awhile

I knew that girl with a broken soul  
And a complicated smile

I know a girl with a one track mind  
She's too far gone to know  
I know a girl with a one track mind,  
It hurts to watch her go

She never found a way to get down  
Without shooting for the moon  
I knew that girl, with a one track mind,  
She left this world too soon
