

Light You Up

Shawn Mullins

I just want to light you up
Light you up
Like a fire
I just want to turn you on
Turn you on
And take you higher

Everybody wants a flat screen
Everybody wanna be seen
Everybody wanna be famous
Ain't nobody gonna blame us
Everybody wants the real deal
Everybody wants to cop a good feel
Everybody want more money
Everybody wants a taste of your honey

I just want to light you up
Light you up
Like a fire
I just want to turn you on
Turn you on
And take you higher

Everybody wants to pick at your guitar
Everybody want to ride in your fast car
Everybody wants a puff of your pipe dream
Everybody want a lick of your ice cream
The preacher wanna tell you how to live life
Your momma and your daddy got you uptight
Your lover gonna go and pick another fight
I just wanna keep you up all night

I just want to light you up
Light you up
Like a fire
I just want to turn you on
Turn you on
And take you higher

Yeah this old world can bring you down
And turn your smile into a frown
Break your heart and make you sad
Drive you stark raving mad

I just want to light you up
Light you up
Like a fire
I just want to turn you on
Turn you on
And take you higher
(repeat 1x)
