

Easy to Love You

Shayne Ward

Uncomplicated, you enjoy the simple things
Don't need no make-up you just wear what nature brings
If you could see what I see you would know you're beautiful

You make it easy to love you every time you smile at me
And it's so easy to love you girl you shine so naturally
I couldn't even count them there's so many ways
You make it easy to love you

You can't hide it, it's there in everything you do
You don't see it, and that's just why I fell for you
If you could see what I see you would know you're beautiful

You make it easy to love you every time you smile at me
And it's so easy to love you girl you shine so naturally
I couldn't even count them there's so many ways
You make it easy to love you

You make it easy to love you
If you could see what I see you would know you're beautiful

You make it easy to love you every time you smile at me
And it's so easy to love you girl you shine so naturally
I couldn't even count them there's so many ways
You make it easy to love you
