Sheek Louch

Hey, I'm looking for ("Good love, yeah")
Met a lot of women out there on tour
Ran through them all but I'm just not sure
("Good love, I like that baby")
Yeah, we're going to fight but I think that's just ("Good love, yeah")
(That's the sound right here baby... it feels so good)
First class flights, almost home
But I ("Just can't keep still! ") Let's go:

Fresh off the plane, into the Bent'
Note a little more than what you pay for your rent
I'm tired of the road, no shows booked
Need something home cooked ("I like that baby")
Straight in the door, straight to the floor
I'm already high but light up one more
Just got home I'm trying to chill but I ("Just can't keep still! ")
Gotta hit the block, get a little 'gnac
Fuck with the hood, see if niggas is good
Jake is on me asking me why my music all loud
I just tell him ("I like that baby")
Throw a little dice, head crack twice
Light something up I'm starting to feel nice
They looping around, let me go and peel
Cause I ("Just can't keep still! ")
